

Experimental Methods in Language Acquisition Research (EMLAR) VIII

*Lectures and hands-on tutorials on methodological aspects of
language acquisition research*

The Utrecht Institute of Linguistics OTS (Uil OTS) is pleased to announce the eighth edition of EMLAR, taking place in Utrecht (The Netherlands) from February 1-3, 2012 (Wednesday to Friday).

The workshop aims at training PhD students and advanced MA students in methods of experimental research in first and second language acquisition. Experts in various domains of language acquisition research will give lectures and tutorials. We will also provide the opportunity to present a poster.

For details about the programme of EMLAR VIII and registration please visit our website:

www.hum.uu.nl/emlar/home.htm

Registration closes: December 15, 2011.

For further questions, contact us at: EMLAR2012@uu.nl
