CONFERENCE ABSTRACT

This is the ninth edition of the *International Conference of Iranian Linguistics (ICIL)*. The ICIL conferences aim to bring together linguists and philologists of different theoretical backgrounds working on Iranian languages. There are thus only plenary sessions during the conferences in order to allow participants to attend all presentations.

The ICIL organisers have also published peer-reviewed [collections of articles](#) emerging from the conferences, which underline the approach of integrating the various disciplines.

The Ninth ICIL will be held online on 18th–20th of August 2021, hosted by and organized in cooperation with the *Institut für Iranistik* of the Austrian Academy of Sciences. The papers, selected by the members of the Conference Board, will be given by internationally renowned as well as younger scholars from Australia, Austria, Canada, Chile, China, France, Georgia, Germany, Hungary, Iran, Italy, Japan, the Netherlands, Poland, Russia, the United Kingdom and the United States.

In the framework of the conference the Austrian Academy of Sciences Press will present linguistically relevant publications of the *Veröffentlichungen zur Iranistik*, *Iranische Onomastik* and *Grammatica Iranica* monograph series of the *Sitzungsberichte der Österreichischen Akademie der Wissenschaften* issued by the Austrian Academy of Sciences Press, Vienna.
